There can be no assurance that the future performance of an individual account will be the same as the performance of any other account, including those represented in the historical record we present.

The performance figures shown are calculated in U.S. dollars on a size-weighted basis and reflect the reinvestment of dividends and other earnings, and the deduction of brokerage commissions and other transaction costs. Performance is provided on a gross basis (before the deduction of management fees) as well as net of the highest fee level from the standard fee schedule listed for this strategy during the period presented. From January 1, 2007 to April 30, 2010 the applied standard fee was 150 basis points. From May 1, 2010 through present the applied standard fee is 100 basis points.
